

DROP OFF SYSTEM

The drop off system used on our runs (except where stated otherwise) works as follows:

There is a lead rider wearing an orange HI Visibility tabard.

There are two tail end riders wearing orange HI Visibility tabards. At each junction the two riders behind the lead rider will drop off and wait to direct all the following riders. The lead rider will indicate where to wait. When the two tail end riders appear, **THEN AND ONLY THEN**, can the two drop off riders leave their positions and re-join the ride in front of the two tail end riders and so the process continues. The two tail end riders must and will always continue riding. If an **incident** or **breakdown** occurs it should be dealt with by a buddy.

NOTE: We have included one **GIRDER FORK/ FLAT TANKER** run in the calendar, with different start points around the County. These runs are for eligible machines, regardless of capacity or power. They are intended for those who have veteran or vintage bikes but do not want to use them on the normal ride outs because they would prefer to have **SHORTER** rides and to avoid too many miles on their machines. To trailer/van their bikes to start/end points if desired. To have a gentler route and be able to go at their own pace.

ALL MACHINES ARE WELCOME.
